Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 1 and 7 are objected to because of the following informalities: Claim 1 recites in section E, "a closed louver member slidingly carried over said light transmitting tube, said closed louver member substantially covering said light transmitting tube and said base assembly", claim 1 recites in the last paragraph "whereby said open and closed louver members form a vertically stacked layer of louver members". Since applicant has recited there is only one closed louver member, it is unclear how the open and closed louver members form a vertically stacked layer of louver members since such a statement suggest that there is a plurality of open and closed louver members. Claim 7 recites in section B "said horizontal connector member". There is no antecedent basis in the claim for this limitation appropriate correction is required.

Allowable Subject Matter

2. Claims 1,3-7 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: The prior art cited, specifically Iacono et al and Toth, although teaching a light fixture with a lens member and louver members having central openings therein, the prior art cited does not teach in combination a lighting fixture with a plurality of vertical framing members extending from the four corners of the top end of the base and

defining four open windows the vertical framing members having a top end , a light transmitting tube surrounding the vertical framing members, and the horizontal connector member, one or more open louver members surrounding the light transmitting tube, a closed louver member on top of the open louver member and surrounding the light transmitting tube.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
